

SCIENTISTS PAST AND PRESENT AND THEIR THEORIES ON THE ORIGIN OF THE UNIVERSE

Using the scientist you have been assigned, provide background information on this person and a description of their theory.

Scientist:

- ✦ Where were they born and when?
- ✦ Where were they educated?
- ✦ Who did they marry?
- ✦ What influences did they have in their life?
- ✦ Scientific collaborations or affiliations
- ✦ Interesting facts

Theory:

- ✦ Describe in detail
- ✦ What led to this theory
- ✦ How was it received by the public, religious leaders, peers
- ✦ Interesting facts

After you have completed your research you will design a poster to present your research. Use graphics, pictures, diagrams, cartoons, and bulleted information - anything you think that will make your poster both informative and interesting to the class.

Name _____ Class _____ Date _____
